

PRODUCT FACT SHEET

WICKER BREAD BASKET FURNITURE / LIGHTING / ACCESSORIES

Cecilie Manz on the design "A basket for the daily bread. Wicker Basket has clear references to typical Scandinavian basket techniques: wide and thin strips weaved in two directions. Only this time produced with completely different method and material - a highly durable composite moulded into it's shape. This gives a structure that is light and hollow, emphasizing the direction of the individual strips."

PROCESS	High-pressure plastic casting, final finishing handmade.
DESIGNED BY / YEAR OF DESIGN	Cecilie Manz / 2008
TYPE	Bread basket
DESCRIPTION	The Wicker bread basket comes with cotton textile, to hold breadcrumbs.
ENVIRONMENT	Indoor
DIMENSIONS (CM)	height 6, length 22, width 22
