

# Linear Steel Side Chair

“The Linear Steel Series was designed from the idea of presenting durable materials in a sophisticated and understated expression for outdoor use with its form language inspired by the notion of meetings—the meetings of lines, the meetings of shapes and the meetings of materials. The design is defined by its straight lines for a contemporary yet timeless aesthetic through the details of its folded edges, half-circular intersecting legs and small spacing for easy outflow of water. It is through these subtle elements that the Linear Steel Series translates the values of elegance, longevity and functionality into modern outdoor furniture.”

— Thomas Bentzen

<b>Designed by</b>	Thomas Bentzen / 2020
<b>About the designer</b>	Thomas Bentzen, former Head of Design at Muuto, started his own studio in 2010. Bentzen’s designs are characterized by simplicity, rationality and functionality — always firmly rooted in the Danish design tradition, material knowledge, craftsmanship and rational industrial manufacturing processes. His work continues to receive international recognition at fairs and exhibitions all over the world.
<b>Environment</b>	Outdoor
<b>Country of Production</b>	Italy
<b>Preassembled</b>	Yes
<b>Description</b>	The Linear Steel Side Chair is designed with clean, elegant lines and subtle details for a modern expression. Uniting invitingly organic shapes with extensive comfort and long-lasting qualities, the Linear Steel Side Chair is an outdoor chair without any compromises. It is defined by its contrasts; the clean lines of its seat and front legs in combination with the ergonomic, smoothly curved backrest for an enveloping comfort. The Linear Steel Side Chair is rationally designed in the way in which its seat is part of the apron, making for less material use in the production phase while making for a strong, durable design. Linear Steel Side Chair stacks up to 5 chairs on the floor.
<b>Material</b>	The Linear Steel Side Chair is made from galvanized steel with a weather-resistant deep matt, UV-resistant powder coated finish, making the chair suitable for outdoor use. Plastic glides for outdoor use.
<b>Cleaning &amp; Care</b>	When cared for properly, the Linear Steel Series is designed to last. Follow these simple rules to care for your design in the best possible way. Clean the chair with a damp cloth after use. If necessary, use a mild detergent or dish-washing liquid, not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. Lacquered surfaces can get scratches and chips if hit by other hard objects.
<b>Accessories</b>	Linear Steel Chair Seat Pad
