

Fiber Lounge Chair Tube Base

“One of the most difficult and noble disciplines of design is to create simple, well-functioning and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Lounge Chair to do just that through a clear and sculptural language that refuses to compromise on comfort, embracing the body of its user. With a light and almost hovering appearance, the design joins soft, friendly curves with an innovative wood fiber composite, giving the Fiber Lounge Chair a unique expression and inviting seat.”

Description

The Fiber Chair brings a new perspective to the iconic shell chair through its innovative composite of 100% recycled plastic and wood fibers. The wood fibers blend into the surface for a matte finish, adding a soft, inviting touch. The Fiber Chair is designed with friendly, embracing curves that provide extensive comfort to its user while taking up little space in the room.

Material

Shell - Without Upholstery:

100% recycled plastic mixed with up to 25% FSC™- certified (FSC-C028824) wood fibers.

Due to the partly natural material of the shell, slight color variations can occur.

Shell – Upholstered Variants:

100% recycled plastic mixed with up to 25% wood fibers.

Shell can be upholstered with textile, imitation leather, or leather. Leather from selected premium leather suppliers.

Base:

Tube base in powder coated steel.

Please note that the Fiber Chair with recycled plastic will be available in North America in 2024. Therefore, the North American versions are not EU Ecolabel Certified.

Cleaning & Care

Textile:

For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water. We highly recommend that you go to kvadrat.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather:

Clean with lukewarm PH-neutral soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterwards.

Leather:

As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time.

Refine Leather, Easy Leather and Endure Leather: Clean leather with a dry cloth regularly. treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid any chemical products, such as saddle soap, leather cleaners or household products.

Base:

Clean with a moist cloth. If necessary, use a little dish soap on the cloth.

Spareparts

Pre-mounted plastic glides included. Felt and plastic glides can be purchased seperately.

Spare parts are available throughout the warranty period from the date of purchase of the product. For any inquiries, please contact customercare@muuto.com
