

TwiggyXL, table design Marc Sadler 2006

FOSCARINI

Foscarini and Marc Sadler's shared passion for research into new technologies has given rise to Twiggy, the iconic arched floor lamp which is available in an entire collection of lamps made of composite material on a lacquered fibreglass base. The reading and XL table version stand out for the successful synthesis of absolute formal simplify and strong personality: using the same diffuser and the same base as the floor lamp, and a rod that develops vertically, in two different heights. The simple flat disc of the base, which is light-weight and compact, can be inserted

anywhere with ease. The diffuser guarantees direct lighting in the area underneath the lamp and - thanks to the transparency of the upper protection disk - diffuses efficient lighting by reflection, while at the same time guaranteeing good glare protection. Available in two colours, it can blend in seamlessly with any décor and style.

TwiggyXL, table technical info

FOSCARINI

Description

Table or floor lamp with diffused and direct light. Diffuser made of fibreglass-based composite material and liquid lacquered. Glossy white polycarbonate upper disc, fibreglass rod and epoxy powder coated metal base. The transparent cable is fitted with the dimmer, for the gradual adjustment of brightness.

Materials compound material on lacquered glass fiber base
